

Edmonton Feb 1-2, 2010

Added objectives

32. Increase the understanding of the role of human dimensions in waterfowl management decisions
33. Increase stakeholder communications effort
34. Increase restoration of wetlands and associated upland habitats.
35. Collaborate/integrate the NAWMP with other environmental initiatives.
36. Ensure the NAWMP is adaptable to long term changes in environmental conditions e.g. climate change
37. Minimize impediments to new hunter recruitment
38. Maximize harvest of overabundant species while maintaining public support.
39. Effective management/control of non-native invasive waterfowl and plant species
40. Increased engagement with private land owners
41. Maximize conservation of biodiversity while managing wetlands and associated uplands for waterfowl
42. Maintain and establish land managers' support for conserving wetlands and associated uplands.
43. Expand partnerships that fund and deliver waterfowl conservation initiatives
44. Better understanding of the socioeconomic factors (such as land use changes) influencing changes in waterfowl habitat
